ShoeAdda color options

Four natural palettes drawn from moss, clay, sage and sea, plus Option E from your four swatches and Option F from the Octet mobile shopping palette. Each keeps a soft earthy base and one accent that is reserved for buttons and selected states, so Add to cart always stands out.

Background #F3F2EC

Surface #E7E5DA

Text #1F2A22

Accent #3F6B4F

Sale #B4472F

Muted text #6A6F66

CONTRAST White text on accent 6.1:1. Text on base 13.3:1. Dark mode accent 8.8:1.

BEST FOR Sneakers, walking and trail shoes. The most "natural" feel of the four.

RISK Green can read as eco-brand. Sale tags use a clay red to stay distinct.

Text #2B2118

Accent #9A4A2E

Sale #B3261E

Muted text #74685C

CONTRAST White text on accent 6.2:1. Text on base 14.6:1. Dark mode accent 7.3:1.

BEST FOR Leather, formal and casual shoes. Warmest of the four.

RISK Accent and sale tag are both warm reds. Keep the sale tag small and the accent on buttons only.

OPTION C

Sage and Mist

Muted sage on a pale green-grey base. The quietest option, close to a spa or wellness feel.

Background #F5F6F2	Surface #E5E9E0
Text #232823	Accent #4F6F5E
Sale #B4472F	Muted text #677068

CONTRAST White text on accent 5.6:1. Text on base 13.8:1. Dark mode accent 8.8:1.

BEST FOR Comfort and lifestyle shoes, a gentle premium look.

RISK Lowest energy. The accent is subtler, so buttons need generous size.

Background #F5F4F0	Surface #E6E8E5
Text #1B2428	Accent #2F6577
Sale #B4472F	Muted text #626B6E

CONTRAST White text on accent 6.5:1. Text on base 14.4:1. Dark mode accent 7.7:1.

BEST FOR A broad catalog with sports, casual and kids shoes.

RISK Closest to a standard blue app. Less distinctive than the green and clay options.

OPTION E — YOUR PALETTE

Background	#FFFFE3
Surface	#F1F1DA
Text	#4A4A4A
Accent	#6D8196
Sale	#B4472F
Muted text	#6B6B6B

ROLES Butter is the background, charcoal is text and buttons, grey is borders and dividers, slate is the accent for selected states and the logo dot. Surface is a slightly darker butter I added.

CONTRAST Charcoal on butter 8.7:1. Butter on charcoal 8.7:1. Slate on butter 4.0:1, fine for icons and borders, too low for small text.

FIX White text on slate is 4.0:1, so buttons use charcoal instead. If you want slate buttons, darken it to #56697D (5.7:1 with white).

RISK The accent is low-key, so Add to cart relies on the charcoal button. Dark mode here is my own derived version.

Background	#FBFBFB
Surface	#EEEEEC
Text	#131212
Accent	#68513F
Sale	#B4472F
Muted text	#6B6B66

ROLES #FBFBFB background, #131212 text, #68513F cocoa for buttons and selected states, #9BB3BE mist blue behind product photos, #A5967C tan for badges and highlights, #D4D5D2 borders. Surface is a tint I added.

CONTRAST White on cocoa 7.4:1. Text on background 18.1:1. Near-black on mist blue 8.5:1. Dark mode accent 9.6:1.

WATCH OUT Tan and mist blue are only 2.1 to 2.8:1 on white, so use them for backgrounds and decoration, never for text or icons.

BEST FOR Leather, casual and premium shoes. Photos pop on the blue-grey backdrop.

Contrast ratios were calculated from the hex values. Text needs 4.5:1 and buttons or icons need 3:1. Prices in the previews use the planned ₹ conversion of DummyJSON's Nike Air Jordan 1 Red And Black, shown as an example.
